- Oilfield MWD Technician (4+ Years)
- Web Designer (10 Years)
- Construction Project Manager / General Contractor (10 Years)
- Sales (5 Years)

Dear Hiring Manager,

I'm currently seeking an opportunity in the energy or construction fields. My knowledge of technical design, oilfield operations, sales, and the construction field has prepared me to become a versatile asset to your team.

My knowledge and skills in mechanical and technical areas and my knowledge of oilfield and construction operations allow me to handle situations with the understanding of the importance of safety, efficiency and productivity. I am very familiar with the proper use of PPE and harnesses, have been certified by OSHA and have operated forklifts on a periodic basis.

Thank you for your time and consideration. I look forward to learning more about a position and your company's environment. My experience and skills can provide your team with an addition that prides himself for being reliable, doing a good job and being a team player. Please contact me with questions about my qualifications or to discuss my potential role with your company.

Sincerely,

Ashton Cox

NOTICE

My phone number is not visible on the web-based resume for privacy and safety reasons. If you require a full resume with my phone number or would like me to contact you directly, please reach out on the Contact page and put RESUME in the Message box. Thank you for understanding.

Lufkin, Texas | support@ashtoncox.com

Objective I am a very active person that spends as much time outdoors as possible and I'm seeking work that requires some level of physical activity. I'm an eager and energetic person who enjoys physical work. Safety-focused, clean driving record, strong construction and industrial knowledge, drug and alcohol free. I am a team player, work well in groups as well as alone. I intend to be an important asset of my company.

Education

University of Houston
Bachelor of Science in Management **3.2 / 4.0 GPA**

Professional Experience

Web Designer & Sales Representative **July 2021-May 2026**
Bad Ass Websites, Bizash, 10X Town, etc.
Responsibilities include phone sales, business profile management, and website development. I analyze Google business profiles for daily contact lists and commence with direct phone sales, and then craft amazing websites to suit our client's needs.

Lead MWD Field Engineer **July 2019-August 2020**
Gordon Technologies
Responsible for preparing, rigging up, testing, operating, and monitoring MWD equipment at well sites. Skilled in retrievable MWD systems, gamma logging, survey calculations, operational reporting, and Noralis Communication Systems. Ensured all equipment remained functional, properly maintained, safely disassembled, packed, and manifested for return. Provided customers with accurate job progress updates, troubleshooting support, and reliable field data while maintaining detailed daily reports and equipment logs. Consistently followed company, site, and OSHA safety requirements and maintained adequate tools, supplies, and equipment on location.

Lead MWD Field Engineer **June 2018-July 2019**
ProDirectional
Responsibilities include all of the previously mentioned MWD tasks, as well as experience with retrievable MWD tools, XXT and Benchtree Communication Systems, Gamma, and PWD tools. Promptly complete OSHA and Grainger certifications.

Construction Media Designer & General Contractor **March 2013-June 2018**
Construction Sitebuilders
Maintained rental properties, constructed and contracted construction jobs. Built websites with for construction companies with industry standard features for new customer interface.

MWD Field Engineer **July 2011-March 2013**
Stryker Energy Directional
Experience with retrievable and Lock-down tools, High-Temp/High-Pressure Survivor tools, Retrievable Tracker (Tensor) tools, and Proprietary Gamma Logging Equipment. With the failure rate of the Hot Hole tool, I have also become a professional at wire-lining and reseating MWD Tools, as well as experience with Bluestar Hybrid Tensor MWD, gamma logging, assist with disassembly of tools in a safe manner and ensure packed and manifested for return.

Project Coordinator & General Contractor **March 2006-June 2011**
Regency Builders
Managed residential construction and renovation projects from planning through completion. Skilled in coordinating subcontractors, scheduling work, ordering materials, managing budgets, monitoring job-site progress, and resolving project issues. Experienced in working with homeowners, vendors, inspectors, and trades to ensure projects are completed efficiently, safely, on schedule, and to a high standard of quality.
